Washington State Elections

*In the last 25 years,
we have seen ...
Same day voting and counting,
move to a process that covers
6-10 weeks.*

The U.S. Constitution ensures:

- That your vote can not be abridged (meaning compromised)
- That you must be a U.S. Citizen to vote
- That you must be 18 years old to vote

The Evolution of Elections

- In 1776, who could vote and how, varied.
- By Mid-1800's, Secret ballots are introduced.
- By 1900, machines are introduced.
- 1990, Voters voted within their Precincts. Results could be counted within 24 hours. The process had transparency.
- By 1985, computers and mail-in ballots are introduced.

Serious Concerns

- Certifications of equipment and software
- 8 counties in WA use ballot counting programs that have NOT been certified by the Federal Election Commission in 2020 and 2022. That certification is required by state law as well.
- Single Day voting is now multi-week voting.
- Voter Rolls expanding.
- Loss of Transparency: for being able to verify elections and processes.
- Internet Access to our Elections system.
- Non-U.S. Citizens accessing the election system
- Signatures can be verified by computer!
- Scanners can be reprogrammed to manipulate votes .
 1. Ballots Scanned into image #1
 2. Image #1 is then processed by the computer into Image #2 or the Cast Vote Record or "CVR"
 3. The CVR is processed into a dataset.
 4. Multiple States have held that CVR's are publicly available, WA does not allow these to be viewed.

Processing & Tabulation

The processing of ballots begins weeks before election day, allowing for the data from ballots that have been processed to be stored on electronic devices and in computers, that are accessible via the internet.

Spokane County In 2022

- 4,300+ Ballots printed at home are transferred at the elections office to official ballot status, 1,200+ are in the final days of the election.
- The County Auditor's race was determined by 1183 votes, which is less than 3 votes per precinct and about the same number of ballots that were printed off of home computers.
- Voter Registrations increase to a record high 359,764 in 2022.
- Voter Service Centers are opened for jails and prisons while community VSCs in libraries were closed.

2023 Washington Legislature

- 9 election related bills were passed that make significant changes to WA elections.
- New laws allow all state agencies to register voters and for voters to use just the last 4 digits of a social security number as ID.
